

# Agate Cameo Stones with 3 different colors.

Samples for Agate-Cameo Stones with 3-layers and 3 different colors

These unique and very rare Cameo Stones are available to you in a multitude of colors combinations. Because of this, there are no set limits for the Artist when engraving.

Whether the Agate Cameo Stone display Relief or Shading, the stones become a totally new look through their many color combinations.

Due to the rough material being quite rare and the complicated production, the 3-color Agate Cameo Stones are only available in limited quantities.

There are very few companies world-wide possessing the know-how in producing these stones.

Another interesting highlight our 3-layer Agate Cameo Stones with 2 different colors.

These 3-layer Agate-Cameostones allow the engraver to develop and present a very special style.

## A Classic
